3. The Hospitality and Honor

Introduction

The delegation was warm-welcomed and then taken to the office of Pro-vice-chancellor Management Sciences and Engineering where the introduction session with the faculty members and CDC officials was made by the chairperson, department of Management Sciences. Later on, there was a turn of tea and coffee with refreshment served to the delegation with a very warm welcome. Every official took the turn to reflect their respective contributions and achievements of CDC.

Topi-Ajrak

The Pro-vice chancellor, faculty of Management Sciences and engineering Isra University delighted to honour the guests with Ajrak and Topi that shows the immense respect, optimism and sense of mutualism. Each of the officials of PUMHS was awarded with a Gift-pack from the Pro-vice chancellor. That packs contained the Sindhi Topi, Sindhi Ajrak, a key chain, a Mug of coffee / tea, a pen, visiting card catcher.

Lunch

The arrangement of lunch was also served to the guests of delegation. Pro-vice-chancellor delighted to be with the delegation at the Lunch and had a very good time together. It was almost working lunch. Discussion throughout the lunch went round about the interventions and collaborations with government and other stakeholders and organizations in terms of the projects. And the officers kept sharing their productive experiences and good e

4. Visit of the Campus

The delegation of CDC-PUMHS was taken to visit the newly build campus of Management Sciences

of

accompanied by the pro-vice chancellor, deputy director CDC, Chairperson, Management Sciences.

It was new and delightful experience for all of us to visit at CDC – Isra University Hyderabad. However, glancing at the competence and performance of the concerned officials CDC- Isra University was really appreciable, It was a sense of great motivation and an encouragement for the delegation to view and review all about the Careers of the students, highly motivated and well-convinced with the examples they reflected.

5. Way Forward

As far as the career of a Medical student is concerned, very immediate measure need to be taken to brightened the career of a student think it is, of course, beneficial for all sorts of organizations and universities. It has got lot of essence and importance. One necessary reason of attending such programs is that it keeps institutions in quick communication channel and lesion with each other. It was over all just fine experience. In this regard, I would like to suggest the management of PUMHS to carry on these sorts of programs. These sessions / programs / training are basically capacity-buildings of the institutions.

6. Suggestions for up-coming Trainings

I, as participant / facilitator would like to draw kind attention of the Management of PUMHS to refer and prefer to the courses / trainings / sessions / workshops being conducted by IBA-Karachi. The same must be carried on. On the official website of IBA Karachi, there are so many courses, workshops and trainings being offered. The areas of the trainings are as “Effective Communications Skills”, “Effective Managerial Skills”, “Conflict Management”, “Technical-Official-Writing proceedings”, “Presentation Skills”, “Proposal Writings”, “English Language Fluency and Accuracy”, “Leadership Skills” and many more. Apart from it, many other institutions offer professional sessions / seminars like as, British Counsel Karachi, SPELT-Karachi, AKU-IED Karachi, IBA-Karachi, SOL-Karachi and HEC-Islamabad. I would like to request the higher Management of the PUMHS to continue short list for the up-coming programs as well. I’m sure and I assure the top management of the university that university will be benefited ultimately. Once we have attended the sessions, we feel empowered to conduct the same sessions for our university with the same spirit and enthusiasm. I am very much optimistic expecting to be shortlisted for the future sessions as well.

7. Over All Analysis

Over all it was learning experience, I personally learned many things new. In last.
